For more exciting multitoach products visit
www.magicviiu.com

The Promultis Lightning II is a highly versatile, fast and reliable multitouch screen. With a narrow bezel and modern sleek design, this unit is extremely well equipped with the latest in multitouch infra-red technology.

Available in sizes from 43" up to 86" and available in 1080p HD or 4K UHD variants. The wall or stand mounted Lightning II screen is a very flexible and highly cost-effective solution to a multitude of needs.

Promultis Touch Screens are ideal for:

- Control rooms
- Interactive digital signage
- Education and training rooms
- Presentation environments
- Video conferencing
- Boardrooms
- Reception area

Integrated Android 5.01

Connect a usb drive to one of the usb ports on the display and upload your media directly into the built-in Android Operating System. View and manage your media assets directly from the usb drive.

In addition, you can open the Play Store and install any app onto the screen.

Onscreen Menu

Onscreen menu allows you to change volume, change video input, freeze the screen, annotate, and turn off the screen. These options are also accessible from the buttons on the side of the screen.

Optional PC integration in rear of display

OPS PC with Intel i5 or i7 Processor and built-in A/C and WiFi Router.

USB port for camera

USB port on the top of the display for usb web camera, allowing you to use the Lightning II as a very powerful video conferencing tool and take advantage of a whole host of photo and video applications.

In this example Promultis developed interactive software to exploit the screen webcam feature allowing the client's employees to upload their photograph and add a message of support for an on-going product development.

Promultis White Board Software

The Lightning II also comes with our industry renowned UboardMate interactive whiteboard software, which allows you to interact with the screen content in a multitude of fun and creative ways, perfect for education and training.

Optional Collaboration Software

Promultis software solutions help you to make presentations more interactive. Allowing your audience to connect wirelessly and contribute to your presentation and collaborate with each other from their own devices. Participants can contribute, add their own notes, capture content and save that session for review at a later date. Enhance meetings, presentations, training and teaching.

Optional Bespoke Interactive Software

Engage with customers through a fully branded, interactive application with multi-user, collaborative interface incorporating your corporate identity, images, literature, audio files, videos, web sites and social media.

Interactive, digital signage solution developed for a city centre transport hub in Scotland featuring wayfinding, local attractions and transport timetables.

55" Lightning II Screen

43" Lightning II Screen

[promultis]

Lightning III Touch Screen

4K Ultra High Definition (UHD) with 32 touch points. The picture quality is excellent and the touch response is superb. The screen is perfect for Business, Education and Commercial use.

Tough Anti Scratch /
Anti Glare Surface

Wall Bracket Included

HDMI, VGA, RS232
and USB Connectivity

Optional OPS PC

Interactive UBoardMate
Whiteboard Software

USB slot for Webcam

55" | 65" | 75" | 86"
Screen sizes available

32 Touch Points

Anti-bacterial film option
Currently being tested for COVID-19

Integrated Android
Use without a connected PC

3 Year Repair or Replace Warranty

The Promultis Lightning III is a highly versatile, fast and reliable multitouch screen. With a narrow bezel and modern sleek design, this unit is extremely well equipped with the latest in multitouch infra-red technology.

Available in sizes from 55" up to 86" and all are 4K UHD. The wall or stand mounted Lightning III screen is a very flexible and highly cost-effective solution to a multitude of needs.

Promultis Touch Screens are ideal for:

- Control rooms
- Interactive digital signage
- Education and training rooms
- Presentation environments
- Video conferencing
- Boardrooms
- Reception area

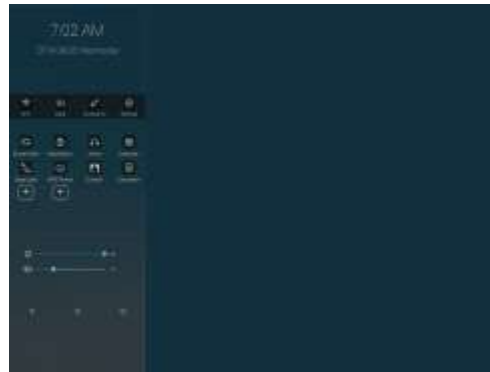

Integrated Android 8.0

Connect a usb drive to one of the usb ports on the display and upload your media directly into the built-in Android Operating System. View and manage your media assets directly from the usb drive.

In addition, you can open the Play Store and install any app onto the screen.

Onscreen Menu

Onscreen menu allows you to change volume, change video input, freeze the screen, annotate, and turn off the screen. These options are also accessible from the buttons on the side of the screen.

Optional PC integration in rear of display

OPS PC with Intel i5 or i7 Processor and built-in A/C band WiFi Router.

USB port for camera

USB port on the top of the display for usb web camera, allowing you to use the Lightning III as a very powerful video conferencing tool and take advantage of a whole host of photo and video applications.

In this example Promultis developed interactive software to exploit the screen webcam feature allowing the client's employees to upload their photograph and add a message of support for an on-going product development.

Promultis White Board Software

The Lightning III also comes with our industry renowned UboardMate interactive whiteboard software, which allows you to interact with the screen content in a multitude of fun and creative ways, perfect for education and training.

Optional Collaboration Software

Promultis software solutions help you to make presentations more interactive. Allowing your audience to connect wirelessly and contribute to your presentation and collaborate with each other from their own devices. Participants can contribute, add their own notes, capture content and save that session for review at a later date. Enhance meetings, presentations, training and teaching.

Optional Bespoke Interactive Software

Engage with customers through a fully branded, interactive application with multi-user, collaborative interface incorporating your corporate identity, images, literature, audio files, videos, web sites and social media.

Interactive, digital signage solution developed for a city centre transport hub in Scotland featuring wayfinding, local attractions and transport timetables.

If you are looking for a high impact, attention grabbing, futuristic and influential marketing and data collection behemoth, look no further than the Promultis Totem Focus!

The Promultis Totem Focus stands just over 6ft tall with an integrated 1080p webcam, the stunning 55" 4K UHD vertical backlit screen, housed in a stylish gloss black aluminium and steel housing, commands attention.

Bestowing tempered glass and utilising the very latest in Infra-Red technology, the Totem Focus is capable of allowing up to 10 touch points from any input, including a finger, gloved finger, stylus or pen. The Totem Focus also has incredible connectivity by means of integrated Wi-Fi, HDMI, VGA, RS232 and USB ports.

The Promultis Totem Focus is ideally suited for high-traffic locations such as

- Retail environments and shopping malls
- Corporate Spaces
- Local government
- Hospitality
- Transportation hubs
- Exhibitions and Events
- Entertainment
- Museum & Galleries

Promultis Interactive Digital Signage Solutions

Connecting brands and services to your audience in real time and include payment options such as credit card terminals. Incorporate QR codes to communicate with consumers digital devices. Data transfer to and from devices via wireless technology and capture analytic data for marketing and data warehousing.

Integrated secure payment process in conjunction with the POS terminal fixed to Totem for the National Gallery.

Integrated Webcam

Take advantage of a whole host of photo and video applications.

Promultis developed a photobooth application on the Totem utilising the webcam for Virgin Holidays. Using green screen the application captures the users photo against a selected holiday destination background and sent to the visitor's email.

Demographic Recognition

Imagine a male customer walks into a shoe shop, and walks by an interactive totem showing generic shoe adverts. As the customer approaches the kiosk, a camera inside it recognizes a man, in his 30's approaching, and the adverts automatically change to the male range of trainers, with a trainer model known to sell well to this age range.

This customer then wants to interact with the screen and can select a range of trainers and colours for comparison. Rather than speak to a shop assistant, the customer puts the item he likes into a virtual basket, pays, and is directed to the shop counter to receive his goods.

Branding Opportunity

The Promultis Totem is ideal for corporate branding or promotions.

Promultis created bespoke interactive software for all the activities in the Leisure Centre on two branded Totems.

IMMERSE Bespoke Interactive Software for Promultis Totem Focus

Promultis offer a bespoke software creation service where our software development team will create a multi-touch interactive experience to run on your touch hardware. Visit the IMMERSE website at <https://immerse.promultis.info/>

At the end of the day, you like to know what customer profiles came into your store. How about knowing the number of male, female, age ranges and what they purchased? We have software and hardware that allows all of this to be reported, and the Totem Focus is the perfect product for this kind of data collection.

CHASSIS FEATURES	
Material	Metal & Aluminium
Glass	Tempered Glass
Colour	Black
Dimensions (mm)	1850 x 820 x 87.5
Foot dims (mm)	50 x 820 x 450
Weight	68 kg
TOUCH TECHNOLOGY	
Infra red	10 touch points
MAIN BOARD	
Menu Language	English
Chipset	MSD6A828, quad core
RAM	2GB
ROM	16GB
Android Version	Android 5.0.1
MAIN BOARD CONNECTIVITY	
AVI 1	1

CHASSIS FEATURES	
Materials	Metal & Aluminum
Glass type	Toughened
Colour	Black or white
Dimensions	988mm(w) x 2057mm(h) x 120mm(d)
Base plate	1155mm(w) x 580mm(d) x 80mm(h)
PANEL	
Interactive area	809mm x 1439mm (65")
Panel resolution	1080p HD
Native resolution	1080 pixels x 1920 pixels 60Hz
Brightness (nits)	450
Contrast ratio	1500 to 1
Response time	6ms
Aspect ratio	16x9
Viewing angle	178° / 178°
Pixel pitch	0.744 (mm)
LCD Illumination	Backlit LED
Speaker	10W x2
ENVIRONMENT	
Operating temperature	50°F to 104°F (10°C to 40°C)
Operating Humidity	10% to 80%, non-condensing
Storage Temperature	-4°F to 113°F (-20°C to 45°C)
Storage Humidity	5% to 95%, non-condensing
SHIPPED WITH	
Cables	Power cable
Remote control	Included
User manual	Included
WARRANTY	
1 year on-site warranty as standard	

INFRA RED TOUCH	
Touch Points	10
Touch sensitive to	Finger, Opaque object, Stylus
Sunlight Sensitivity	Can be used in direct sunlight
Interpolation	32,768x32,768
Response time	Repeated touch <6ms
Drift	None
Temperature	-20°C~60°C
Accuracy	±2mm
Interface	USB-2
Relative Humidity	10%~90%RH
Supported	OS Windows
INTEGRATED MICROSOFT LIFECAM CINEMA WEBCAM	
True 720p HD video	Records true HD-quality video at up to 30 fps.
Auto Focus	Images stay sharp and detailed even during close-ups.
High-precision glass element lens	Delivers more accurate colours and sharper video.
ClearFrame Technology	Delivers smooth, detailed video, even in low light conditions.
Digital Microphone	With noise cancelling technology, helps improve speech quality for crystal clear audio
TrueColor Technology	Automatically controls exposure for bright and colourful video.

INTEL NUC PC INTEGRATED IN REAR OF TOTEM	
Processor	Intel Core i5
Graphics	Intel Iris Plus Graphics 640
USB	Hi-speed USB 2.0 Ports
Wireless	Dual Band Wireless-AC
Memory	4GB RAM
Hard Drive	240GB SSD
OS	Windows 10

The Promultis Table is a slim, stylish and futuristic piece of hardware. Constructed from sturdy aluminium in a coffee table design, the Promultis Table is a collaborative, interactive multitouch surface solution that integrates the latest touch screen technology into a user-friendly and intuitive design.

The Promultis Table is available in a variety of configurations; Interactive areas from 43" up to 65", the choice of 1080p HD or 4K UHD LED screens, optional integrated PC and a choice of software bundles. There is also the option of infra-red with 32 touch points or capacitive touch technology with up to 100 touch points, and custom leg height options that make the table optimal for wheel chair users.

When configured with capacitive touch technology, the table top can have an almost completely flat surface, also, with discreet power outlets and efficient, safe cable management, the Promultis Table is incredibly tidy and minimal in appearance.

Promultis touch tables are ideal for:

- Receptions
- Foyer Areas
- Dining Halls
- Coffee Areas
- Exhibition Stands
- Libraries

Secure PC housing

Should an integrated PC be specified, there is a secure PC housing beneath the table.

Table dimensions

	Width	Depth	Height
42"	800 mm	1600 mm	650 mm*
48"	800 mm	1600 mm	650 mm*
55"	1000 mm	2000 mm	650 mm*
65"	1000 mm	2000 mm	650 mm*

**800mm taller leg option available at additional cost*

The table provides a large working surface area allowing several users to collaborate all at the same time. Users can control the content they see by using natural gestures such as pinch, zoom and drag.

The Promultis Table allows your business to engage, inform and entertain customers in a host of ways. The Promultis Table can also allow you to gain valuable insight into your customers, making the Promultis Table a highly effective data collection tool! It can also be branded with your own identity or promotion.

Software options

The Snowflake Suite Ultimate is perfect for education and training, its fully featured with all over 52 apps, including presentation, creativity and productivity tools, as well as games. It is intuitive and easy to use and customisable to suit your needs.

Bespoke Interactive Software

Engage with customers through a fully branded, interactive application with multi-user, collaborative interface incorporating your corporate identity, images, literature, audio files, videos, web sites and social media.

CHASSIS FEATURES	
Materials	Aluminum
Glass type	Toughened
Enclosure	PC and Cable Mangement
Base	4 Floor Levelling Castors
PANEL	
Interactive area	55"
Panel resolution	1080p HD or 4K UHD
Native resolution	1920x1080 or 3840 x 2160 60Hz
Brightness (nits)	450
Contrast ratio	1500 to 1
Response time	6ms
Aspect ratio	16x9
Viewing angle	178° / 178°
Pixel pitch	0.744 (mm)
LCD Illumination	Backlit LED
Speaker	10W x2
ENVIRONMENT	
Operating temperature	50°F to 104°F (10°C to 40°C)
Operating Humidity	10% to 80%, non-condensing
Storage Temperature	-4°F to 113°F (-20°C to 45°C)
Storage Humidity	5% to 95%, non-condensing
SHIPPED WITH	
Cables	Power USB HDMI
Remote control	Included
User manual	Included
WARRANTY	
3 year on-site warranty as standard	
Extended warranties and SLA's available at an additional cost	

INFRA RED TOUCH	
Touch Points	10 & 20
Touch sensitive to	Finger, Opaque object, Stylus
Sunlight Sensitivity	Can be used in direct sunlight
Interpolation	32,768x32,768
Response time	Repeated touch <6ms
Drift	None
Temperature	-20°C~60°C
Accuracy	±2mm
Interface	USB-2
Relative Humidity	10%~90%RH
Supported	OS Windows, MAC, Linux, Android
PROJECTED CAPACITIVE	
Detection method	Projected Capacitive
Input method	Finger and gloved finger
Number of simultaneous touches	100
Noise Shielding	DISPLAX XTR-Shield™ Plus, a proprietary noise filtering technology
Aspect ratio	16:9
Controller	Printed circuit board with mini USB connector
Adhesive	Permanent
Interface	HID
OS with multitouch	Windows 8.1, 8, 7, 10; Ubuntu 12.04; Android; Chrome OS
OS with single touch	Mac OS X Yosemite
OS with mouse emulation	Spinetix Media Player HMP 200
Data connectivity	USB 2.0
Touch accuracy	1mm absolute

PERFORMANCE	
Substrate thickness	Up to 6mm
Touch response	5 milliseconds
Calibration	Available using control panel: no drift
POWER CONSUMPTION	
Average power consumption (P)	USB powered @ 5V
	Peak consumption: 410 mA
	Operation consumption: 370mA
RELIABILITY	
Operating temperature range	-20°C to 70°C
Operating humidity range	0% to 96%
Life time expectancy	Unlimited
Controller life time expectancy	1 million hours

MAGICVIU
MULTITOUCH SOLUTIONS

For more exciting multitouch products visit
www.magicviu.com

The Promultis standard kiosk has been designed for indoor use and is an ideal way to engage your audience with content that can inform, attract, entertain and educate.

The Promultis Kiosk is available in a variety of configurations that can suit any budget and any situation! Constructed with only the highest-grade components, our commercial LED screens are available with 1080p or 4K resolution and up to 800 nit high brightness.

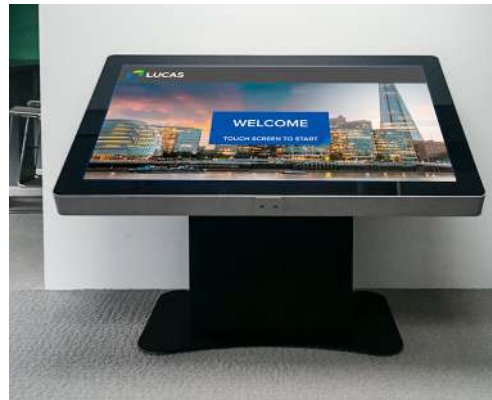

Making the Promultis Kiosk perfect for use in areas with excessive light such as foyers and exhibition halls. You have the option of 43", 55" or 65" screens and also a choice between the very latest infra-red technology which allows up to 32 touches or projected capacitive touch technology which allows for 100 touch points.

The Promultis has a discreet, lockable cabinet with two shelves to house a PC and effective cable management.

Promultis Standard Kiosk is ideal for

- Retail Environments
- Exhibitions & Events
- Corporate Spaces
- Hospitality
- Transportation
- Entertainment

Projected Capacitive Kiosk for a specialist fit out and finishing contractor visitor centre including Promultis bespoke software featuring a corporate presentation featuring the companies services and case studies.

Promultis developed the software for the display presentation using corporate assets supplied by Mitie. The presentation included an interactive PDF viewer showing each facility and a custom made Snowflake game called Tap Tastic.

The Promultis Standard Kiosk has a very sleek and contemporary appearance, however, sometimes you need something just that little more exclusive. We offer you the additional option to completely customise the housing of the kiosk to reflect your branding or campaign messages.

Complete Hardware & Software Solution from Promultis

Promultis can completely customise the unit with your branding while also providing interactive, touch software and digital signage solutions to meet your presentation and education needs.

Eye catching solution to allow customers to create unique designs for their glo devices. As well as creating the software for the Promultis Kiosk, we also worked on a solution that allows users to print off their designs and apply them to their own glo device.

Promultis Bespoke Interactive Software

Engage with customers through a fully branded, interactive application with multi-user, collaborative interface incorporating your corporate identity, images, literature, audio files, videos, web sites and social media.

Software options

The Snowflake Suite Ultimate is perfect for education and training. It is fully featured with over 52 apps, including presentation, creativity and productivity tools, as well as games. It is intuitive and easy to use and customisable to suit your needs.

Information portal and way-finding for students and visitors of the University of Sussex with Promultis free-standing kiosk in the foyer.

Response time	Repeated touch <6ms
Drift	None
Temperature	-20°C~60°C
Accuracy	±2mm
Interface	USB-2
Relative Humidity	10%~90%RH
Supported	OS Windows, MAC, Linux, Android
PROJECTED CAPACITIVE	
Detection method	Projected Capacitive
Input method	Finger and gloved finger
Number of simultaneous touches	100
Noise Shielding	DISPLAX XTR-Shield™ Plus, a proprietary noise filtering technology
Aspect ratio	16:9
Controller	Printed circuit board with mini USB connector
Adhesive	Permanent
Interface	HID
OS with multi-touch	Windows 8.1, 8, 7*: Ubuntu 12.04**; Android**; Chrome OS***
OS with single touch	Mac OS X Yosemite
OS with mouse emulation	Spinetix Media Player HMP 200

* Home Premium SP1; Professional SP1 Ultimate x64 SP1 ** Depending on kernel and multi-touch support. *** 39.0.2171.85(64 bit)

Data connectivity	USB 2.0
Touch accuracy	1mm absolute
Sensor weight	260 g
Controller weight	60 g
PERFORMANCE	
Substrate thickness	Up to 6mm
Touch response	5 milliseconds
Calibration	Available using control panel: no drift
POWER CONSUMPTION	
Average power consumption (P)	USB powered @ 5V
	Peak consumption: 410 mA
	Operation consumption: 370mA
RELIABILITY	
Operating temperature range	-20°C to 70°C
Operating humidity range	0% to 96%
Life time expectancy	Unlimited
Controller life time expectancy	1 million hours

ELECTRIC HEIGHT AND TILT ADJUSTABLE

PROFESSIONAL FLOOR LEVELLING CASTORS

3 YEAR ON-SITE WARRANTY

If you require an interactive, multi-touch screen that is both mobile and has an easy to use configuration of screen height and angle then the Promultis Varitilt Pro is the solution.

The Promultis Varitilt Pro is one of our most versatile products and is available in a variety of screen sizes from 43" all the way up to 65" with the choice of 1080p HD or 4K UHD resolution. Utilising either Projected Capacitive or Infra-red touch technology. The real selling point with this range however, is it's flexibility and mobility!

The Promultis Varitilt Pro has height and tilt adjustment, the height elevation is adjusted by two powered columns to provide stability and finite adjustment. This allows the platform to be lifted, or lowered, effortlessly at the touch of a remote control. The Varitilt Pro also features fully powered tilt adjust. With its floor levelling castors, the Promultis Vari Tilt products can also be moved easily from room to room, much more convenient than a traditional wall mounted screen.

The mobility and adaptability afforded to the Varitilt really does set it apart from the competition. The fact that this product can be used as a very low table (improving accessibility for children and wheelchair users) or used as a high standing desk, or even tilted as a fully upright display or kiosk, means the Varitilt can be utilised in a wide variety of applications. The portability and flexibility of the Varitilt range has proven very popular in the education, SEN (Special Educational Needs), and the training market sectors.

Varitilt with Promultis Lightning Screen

The flexible solution

The ability to adapt the height and the angle of the unit depending on the room, the light and the number of people viewing the screen is unsurpassed by any other product. The ease of which the unit can be moved between rooms also makes the Varitilt very well suited to large establishments that require the flexibility of multi-room use.

Complete Hardware & Software Solution from Promultis

Promultis can completely customise the unit with your branding while also providing interactive, touch software and digital signage solutions to meet your presentation and education needs.

Optional Bespoke Interactive Software

Engage with customers through a fully branded, interactive application with multi-user, collaborative interface incorporating your corporate identity, images, literature, audio files, videos, web sites and social media.

Promultis was commissioned to create an interactive presentation to be displayed on a 65" Varitilt Pro and other touch products.

Optional Software options

The Snowflake Suite Ultimate is perfect for education and training, its fully featured with all over 52 apps, including presentation, creativity and productivity tools, as well as games. It is intuitive and easy to use and customisable to suit your needs.

Promultis installed two 55" Varitilt tables for the National Library of Wales.

If you require an interactive, multi-touch screen that is both mobile and has an easy to use configuration of screen height and angle then the Promultis Varitilt Elite is the solution.

The Promultis Vari Tilt Elite is one of our most versatile products and is available in a variety of screen sizes from 55" all the way up to 86" with the choice of 1080p HD or 4K UHD resolution. Utilising either Projected Capacitive or Infra-red touch technology. The real selling point with this range however, is it's flexibility and mobility!

The Promultis Varitilt Elite has height and tilt adjustment, the height elevation is adjusted by two powered columns to provide stability and finite adjustment. This allows the platform to be lifted, or lowered, effortlessly at the touch of a remote control. The Varitilt elite also features fully powered tilt adjust. With its floor levelling castors, the Promultis Vari Tilt products can also be moved easily from room to room, much more convenient than a traditional wall mounted screen.

The mobility and adaptability afforded to the Vari Tilt really does set it apart from the competition. The fact that this product can be used as a very low table (improving accessibility for children and wheelchair users) or used as a high standing desk, or even tilted as a fully upright display or kiosk, means the Vari-tilt can be utilised in a wide variety of applications. The portability and flexibility of the Vari-tilt range has proven very popular in the education, SEN (Special Educational Needs), and the training market sectors.

Integrated USB connections

Includes 4 USB ports accessible from the sides of the table for connection to external devices.

The flexible solution

The ability to adapt the height and the angle of the unit depending on the room, the light and the number of people viewing the screen is unsurpassed by any other product. The ease of which the unit can be moved between rooms also makes the Vari Tilt very well suited to the flexibility of multi-room use.

Branding & Software Solutions

Promultis can completely customise the unit with your branding while also providing interactive, digital signage solutions to meet your presentation and education needs.

Bespoke Interactive Software

Engage with customers through a fully branded, interactive application with multi-user, collaborative interface incorporating your corporate identity, images, literature, audio files, videos, web sites and social media.

The 84" Vari Tilt Elite was part of the Promultis solution for the training and research facility at Glasgow NHS hospital.

Software options

The Snowflake Suite Ultimate is perfect for education and training, its fully featured with all over 52 apps, including presentation, creativity and productivity tools, as well as games. It is intuitive and easy to use and customisable to suit your needs.

Dubai GEMS Academy with Vari Tilt Elite for enhanced teaching and learning allowing interaction and collaboration from students.

www.magicviu.com

DETECT PHYSICAL OBJECTS ON TOUCHSCREENS

Based on projected capacitive technology

Promultis object recognition works with projected capacitive (PCAP) technology. The capacitive touch screen is activated by human touch, or in this case conductive tags of object recognition, which serves as an electrical conductor to stimulate the electrostatic field of the touch screen. The object is recognized when the tags interfere with the electric field projected above the surface. This change in capacitance is detected by the controller which interprets the X and Y coordinates of the event.

Tags with no battery

The object recognition tags require no power or battery. They are passive, which gives them much more flexibility and durability.

TAG OPTIONS

SLIM

DIAL

SLIM

DIAL

TAG

The smaller tag will allow up to 6 objects to be recognised by the projected capacitive technology.

TAG+

The larger tag+ will allow up to 16 objects to be recognised by the projected capacitive technology.

SPECIFICATIONS TAG or TAG+

Touch technology	Projected Capacitive
Glass Thickness	Up to 4 mm / Up to 0.16 inches
Number of different tags recognized	TAG 6 TAG+ 16
Tag diameter	TAG \varnothing 94 mm / \varnothing 3.70 inches TAG+ \varnothing 124mm / \varnothing 4.88 inches
Tag thickness	13 mm / 0.512 inches
Tag weight	TAG 35 g TAG+ 47 g
Materials	Biodegradable thermoplastic polymer
Number of contact points per tag	Up to 4 contact points
Detection	Position, Drag and Rotation Angle
Communication protocol	TUIO 1.1 and 2.0
Software	Promultis connect
Supported OS	Window 7 or higher
Number of tags per pack	TAG 6 units TAG+ 16 units
SLIM	Tag made of Biodegradable thermoplastic polymer perfect for integration
DIAL	Knob Type of tag; aluminum with plexiglass ring including all and ready to use
POWER CONSUMPTION	
Power required	Battery Free
WARRANTY	
Warranty	2 years

Standard video walls

Promultis Video Walls are the perfect display solution for large-scale viewing environments.

Ultra-narrow bezel LCD flat panels are perfect for creating high-definition, near-seamless tiled display walls in any configuration.

Our professional and industrial-grade, high brightness screens offer up to 800nits for superior visual performance.

These large format displays are ideal for exhibitions, events, corporate boardrooms, receptions, shopping centres, museums and control rooms.

Multitouch video walls

Utilising the latest Infra Red touch technology, Promultis Multitouch Video Walls enables up to 32 touch points and allows multiple users to simultaneously interact with the video wall to achieve a fully collaborative environment.

Featuring a glass front to provide maximum ruggedness to a modular, near seamless touch surface that protects the LCD screens.

The touch screen is self-supported, not putting pressure on the LCD displays. This also enables ease of maintenance as the touch screen can be lifted away for easy monitor adjustment.

These large format displays are ideal for large collaborative environments.

Projected Capacitive Multitouch video walls

Following extensive research & development, our hardware & software engineers were able to manufacture and install a world first! The first curved interactive video wall that utilises projected capacitive touch technology!

Consisting of industry standard, high brightness, high definition screens in a 9x1 configuration, this wall is a true sight to behold. The curved design results in a much more engaging experience for the user, making the content feel closer than ever before.

The solution is also capable of up to 360 touch inputs at any one time, so if required, 36 people could interact with the wall at the same time with both hands! The solution is driven by a Promultis built server using only the highest grade components and graphics cards, ensuring the wall runs smoothly for extended periods at all times.

We have the know how to make your content feel closer and more engaging when utilising a curved design, this is a true breakthrough in the world of interactive video walls and opens a new world of possibilities for our clients.

Gesture and motion-activated solutions

Promultis offers motion-activated and multitouch solutions that allow the user to interact with immersive, instructive and entertaining content.

Promultis video walls can react to a viewer's presence triggered by a camera or touch sensor and track their behaviour.

The software reacts to the viewer's position and movements through camera tracking and can update the content on the video wall through a range of effects including dissolves, swirls, reveals, tiles and rotating shapes.

Photo Booth

This bespoke functionality allows photographs taken via the camera to be displayed on the video wall. The example generated a mosaic showing the images within a larger picture.

Automated Audience Measurement

Face detection and analysis technology counts viewers, accurately measures their dwell and attention times, estimates their gender and age ranges.

This solution delivers the ability to automatically adapt content - in real-time - to the demographics of the audience. As well as statistics-based insight about users and their preferences based on onscreen selections.

Real-time collaboration solutions

Promultis Video Wall solutions include the ability to interact with screen content in real-time from other Promultis Touch Screen products or external devices such as tablets.

Promultis supply interactive interfaces for delivering accessible, fully-branded, media-rich presentations.

Screen configuration

2x2 Video Wall

47" screens - 2090mm x 1180mm*
55" screens - 2431mm x 1372mm*

3x2 Video Wall

47" screens - 3135mm x 1180mm*
55" screens - 3646mm x 1372mm*

2x3 Video Wall

47" screens - 1180mm x 3135mm*
55" screens - 1372mm x 3646mm*

3x3 Video Wall

47" screens - 3135mm x 1770mm*
55" screens - 3646mm x 2058mm*

Unlimited size Video Wall

* Denotes the visible screen area and does not include the video wall structure

Custom Design and Installation Service

Our expert team have extensive experience of designing and installing video wall solutions and offer a complete range of services from design through to installation, and, when necessary, dismantling and collection.

Bracket and frame choice is determined by the environment in which the video wall is required including issues like accessibility being taken into account. Promultis professional frame solutions offer precision alignment and high end serviceability.

Specification

INFRA RED TOUCH TECHNOLOGY

Touch Points	32
Touch sensitive to	Finger, Opaque object, Stylus
Sunlight Sensitivity	Can be used in direct sunlight
Interpolation	32,768x32,768
Response time	Repeated touch <6ms
Drift	None
Temperature	-20°C~60°C
Accuracy	±2mm
Interface	USB-2

PANEL SPECIFICATION

Relative Humidity	10%~90%RH
Supported OS	Windows, MAC, Linux, Android
Aspect Ratio	16:9
Max Resolution	1920 x 1080
Colour	8 bit, 16.7M
Brightness (nits)	500 cd/m ²
High Brightness (nits)	800 cd/m ²
Contrast	1400:1
Visual Angle (H/V)	178°
Response Time	<=6ms
Life (hrs)	>100,000 (hrs)

VIDEO WALL CONTROLLER (built-in each screen)

Model Number	US-P817W
DVI in	1
HDMI in	1
VGA in	1
Composite Video Input/(AV)	1 (BNC)
Composite Video Output	1 (BNC)
Control signal input and loop out	RS232(RJ45-8)
Split Screen	Support Picture in Picture(PIP/POP)

POWER

Power Supply	AC100V~240V
Maximum Power Consumption	250W
Standby Power Consumption	<=3W

TEMPERATURE

Working Temperature	0°C~50°C
Working Humidity	20%-80%

PACKING & WEIGHT

Packing size	1145mm x 280mm x 690mm
Weight	33KGS

SERVICE AND WARRANTY

3 year repair or replace warranty as standard
Extended warranties and SLA's available at an additional cost

Promultis Blox Video Wall Screen with Projected Capacitive Technology

GENERAL	
Detection method	Projected Capacitive Technology
Input method	Finger and gloved finger
Noise Shielding	DISPLAX XTR-Shield™ Plus, a proprietary noise filtering technology
Sizes	55"
Aspect ratio	16 :9
Controller	Printed circuit board with mini USB connector
Adhesive	Permanent
Glass Substrate	Anti-Glare Glass
Substrate thickness	5mm
Bezel Color	Black
Interface	HID
OS with multitouch	Windows 10 , 8, 7 , Ubuntu 12 .04, Linux, Android, Chrome OS
Data connectivity	USB 2.0
Dimensions	1229 x 700 x 77 mm
LCD Bezel	6mm
Gross Weight	Approx . 35kg
VESA Mount	400 x 400
PERFORMANCE	
LCD Response Time	8 milliseconds
Finger separation	1,30% of sensor diagonal
Touch accuracy	0,26% of sensor diagonal
Calibration	Available using control panel : no drift
POWER CONSUMPTION	
Average power consumption (P)	190 W
RELIABILITY	
Operating temperature range	0°C to 40°C
Storage temperature	-20°C to 60°C
Touch Sensor life time expectancy	Unlimited Touch
Controller life time expectancy	1 million hours
Warranty	1 year on-site warranty as standard

Extended warranties and SLA's available at an additional cost

DISPLAY PANEL	
Screen size (diagonal)	55 inch (1387mm)
Panel type	IPS / Edge-LED
Aspect ratio	16:9
Effective display area (w x h)	1209 x 680mm
Number of pixels (h x v)	1920 x 1080 pixels
Brightness	700 cd/m ² (Typ)
Contrast ratio	1300:1
Dynamic contrast	50000:1
Response time	8ms (G to G)
Viewing angle (horizontal / vertical)	178° / 178° (CR ≥ 10)
Panel surface treatment	Anti glare
Panel life time*	approx. 60000 hours (Typ)
*1 When the panel lifetime is at 50% of the brightness under the condition of 25 degrees Celsius (+/-2 degrees Celsius)	
SPEAKER	
Built in Speaker	20 W [10 W + 10 W]
ELECTRICAL	
Power requirements	220 - 240 V AC 50 / 60 Hz
Power consumption	190 W
On Mode Average Power Consumption *	145 W
* Based on IEC 62087 Ed.2 measurement method	
Power Off Condition	approx. 0.3 W
Stand-by Condition	approx. 0.5 W
Apparent power	200 VA
MECHANICAL	
Dimensions (W x H x D) [excluding handle part]	1229 x 700 x 77 mm 1229 x 700 x 62 mm
Carton dimensions (W x H x D)	1444 x 922 x 223 mm
Gross weight	approx. 32.0 kg
Cabinet material / colour	Metal / Black
Pitch for wall -hanging	VESA compliant 400 x 400mm
ENVIRONMENTAL	
Operating environment	Temperature : 0°C to 40°C ~1 : 0°C to 35°C *2 Humidity : 20% to 80% (No condensation) Altitude 0 to 2800 m
Storage environment	Temperature : -20°C to 60°C Humidity : 20% to 80% (No condensation)

*1 : for up to 1400 m altitude *2 : for between 1400 m and 2800 m altitude

CONNECTION TERMINAL
